

California OES Weather Threat Briefing

Sunday, September 22, 2019
9:00 AM PDT

Day 1: Elevated fire weather concerns across Southern Region due to gusty winds and low humidity.

National Weather Service
*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

09/22/19 - 09/28/19

Sunday

- Elevated fire weather concerns continue across Southern Region due to gusty winds and low humidity.
- Winds will become breezier Sunday ahead of an approaching cold front, particularly in the Sierras.
- Light rain is possible across northern Coastal and Inland regions late Sunday and early Monday.

Monday-Wednesday

- Breezier north winds are expected to return Monday through Wednesday across much of the state
- Potentially critical fire weather conditions for portions of the Sacramento Valley and Adjacent Foothills, Northern Coastal Range, North Bay Mountains, East Bay Hills and Diablo Range Monday evening through Wednesday morning due to gusty north winds and low humidity
- Gusty offshore winds likely for Monday night and Tuesday across Southern CA with potentially critical fire weather conditions
- Thunderstorms with a slight risk of localized flash flooding will be possible Monday through Wednesday across far southeastern portions of southern region, near the CA/AZ state line. Confidence continues to be low.

Thursday-Saturday

- Much cooler temperatures across a good portion of the state with a chance for valley rain and mountain snow. Gusty winds continue across the southern portions of the state.
